Procedure Title: TRANSFER OF STUDENTS (BUS to BUS)	Approved: January 11, 2011 Updated: July 4, 2012 September 14, 2012
Related Forms:	Related Policies:

Intent:	Student transfers are a necessity for the delivery of efficient transportation service in Grey-Bruce. This procedure describes the considerations for safely transferring students from bus to bus
Stakeholders:	Schools, Bus Operators, Public, Transportation Consortium
Procedure:	<p>Preference will be to locate transfer points at school sites. Where necessary, transfer points will be established at non-school sites.</p> <p>The maximum number of transfers will be 1 because safety and time can be compromised with more than one transfer.</p> <p>Every effort will be made to transfer elementary school students, at elementary school sites, where supervision may be available. To ensure the safety of elementary students, bus drivers will co-ordinate the transfer of all elementary students between buses.</p> <p>Therefore, when transfers are involved, it is important that bus drivers maintain adequate communication between buses. Consequently it is preferable to have the same radio frequency between transferring buses.</p>
